MRPL Summer 2025 Paid Internship Opportunities For Recants Graduates

Description

MRPL, a subsidiary of Oil and Natural Gas Corporation (ONGC), is one of the most prominent players in India's energy sector. We are known for our state-of-the-art refinery complex, producing a wide range of high-quality petroleum products and petrochemicals. Our internship program is designed to provide aspiring individuals like you with a comprehensive understanding of our industry while nurturing your skills and talents.

Responsibilities

As an MRPL intern, you'll be a valuable member of our team, contributing to critical projects and gaining hands-on experience in various aspects of the refinery and petrochemical business. Your responsibilities may include:

1. **Process Optimization:** Work closely with our engineers to improve refinery processes, enhance efficiency, and reduce environmental impact.
2. **Research and Analysis:** Conduct market research, data analysis, and feasibility studies to support decision-making.
3. **Safety Compliance:** Learn and implement safety protocols to ensure a secure working environment.
4. **Project Support:** Assist in the execution of ongoing projects, from planning to implementation.

Qualifications

To be eligible for an MRPL internship, you should:

- Be pursuing a bachelor's or master's degree in a relevant field (Chemical Engineering, Mechanical Engineering, Petroleum Engineering, Chemistry, etc.).
- Have a strong academic record, showcasing your dedication to learning.
- Possess excellent communication and teamwork skills.
- Exhibit a willingness to learn and adapt in a dynamic work environment.

Experience

While prior experience is not mandatory, any relevant internships, research projects, or extracurricular activities in the energy sector will be a plus point. MRPL values your enthusiasm and potential as much as your experience.

Skills

Our internship program is a transformative experience. Here are some of the skills you can expect to develop during your time with MRPL:

- **Technical Proficiency:** Gain hands-on experience with cutting-edge technology in the energy industry.
- **Problem-Solving:** Tackle real-world challenges and develop creative solutions.
- **Project Management:** Learn how to plan, execute, and monitor projects effectively.
