US Fish and Wildlife Internship Students Employment 2025

Description

The U.S. Fish and Wildlife Service (USFWS) is excited to announce internship opportunities for students in 2024. This internship program provides students with a unique chance to work alongside conservation professionals, gaining hands-on experience in wildlife management and environmental conservation. As an intern with the USFWS, you will contribute to the agency's mission of preserving and enhancing the nation's fish and wildlife resources.

Responsibilities

- Assist in wildlife monitoring, research, and habitat restoration projects
- Support conservation education and outreach initiatives
- Collaborate with biologists and other professionals on field surveys and data collection
- Contribute to the development and implementation of conservation plans
- Participate in community engagement and environmental stewardship activities

Qualifications

- Currently enrolled as a student in a relevant field such as biology, ecology, environmental science, or a related discipline
- Strong academic record with coursework related to wildlife conservation
- Excellent communication and interpersonal skills
- Ability to work outdoors in various environmental conditions
- Passion for wildlife conservation and environmental stewardship

Experience

- Previous coursework, research, or volunteer experience related to wildlife and conservation is advantageous but not required
- Familiarity with fieldwork techniques and ecological principles is a plus

Skills

- Proficient in Microsoft Office Suite (Word, Excel, PowerPoint)
- Strong observational and data collection skills
- Ability to work independently and as part of a team
- Adaptability and enthusiasm for learning in a field setting
- Effective organizational and time management abilities

Job Benefits

- Gain practical experience in wildlife conservation and management
- Networking opportunities with professionals in the conservation field
- Exposure to diverse projects and ecosystems
- Mentorship and guidance from experienced conservation professionals
