Warid Telecom Summer 2025 Opportunity For Under Graduate

Description

Embark on a remarkable journey with Warid Telecom in Abu Dhabi, where innovation and connectivity intertwine to reshape the telecommunications landscape. With a commitment to excellence and a vision for the future, Warid Telecom invites you to join its dynamic team, where your passion for communication and technology will thrive.

Responsibilities

1. Orchestrating seamless network operations and ensuring optimal performance for customers.
2. Collaborating with cross-functional teams to develop and implement strategies to enhance network efficiency.
3. Conducting regular audits and assessments to identify areas for improvement and implement corrective actions.
4. Troubleshooting and resolving complex network issues, ensuring minimal service disruptions.
5. Monitoring network performance indicators and implementing proactive measures to maintain high-quality service.
6. Contributing to the development and implementation of network expansion plans.
7. Keeping abreast of industry trends and technological advancements to drive innovation.

Qualifications

1. A Bachelor's degree in Telecommunications, Electrical Engineering, or a related field.
2. Proven expertise in network operations and telecommunications systems.
3. Extensive knowledge of network protocols, architecture, and technologies.
4. Strong analytical and problem-solving skills, with the ability to work under pressure.
5. Excellent communication and interpersonal skills to collaborate effectively with diverse teams.
6. Proactive mindset and ability to adapt to a fast-paced and dynamic work environment.

Experience

1. Minimum of 5 years of experience in network operations or a related field.
2. Demonstrated track record of managing complex telecommunications projects.
3. Experience with network performance monitoring tools and protocols.
4. Proficiency in analyzing network data and identifying areas for optimization.
5. Familiarity with regulatory requirements and industry standards.
